

The Wall

Platform: Series 60 (Symbian)

Tested on: Nokia 3650

Should also work on: Nokia 7650, Nokia 3660, Nokia 6600, Nokia N-Gage, Sendo X, Siemens SX1, Samsung SGH-D700

How to play

What is it all about? The game screen consist of the WALL (make from bricks), BALL and BAT. Player can move bat in two directions (left and right) and tries to prevent bouncing ball from falling to the ground. The main objective of the game is to destroy as many bricks as you can.

Controls

Use arrows to move the cursor to move left and right.
